

Appl. No. 10/743,905  
Amdt. dated Feb. 17, 2006  
Reply to Office Action of Feb. 8, 2006

**Amendments to the Claims:**

This listing of claims will replace all prior versions, and listings, of claims in the application:

**Listing of Claims:**

Claim 1 (currently amended): A retractable combination automobile sunshade and luggage carrier comprising:

at least one housing;

at least one sunshade means mounted in said housing and comprising roller means and a flexible sunshade mounted on said roller means;

at least one retraction means disposed supporting said housing and capable of an extended and raised position and a retracted and lowered position.

Claim 2 (original): A retractable combination automobile sunshade and luggage carrier as claimed in Claim 1 further comprising seal means mounted on said housing.

Claim 3 (original): A retractable combination automobile sunshade and luggage carrier as claimed in Claim 1 wherein said retraction means comprises a linkage mechanism.

Appl. No. 10/743,905  
Amdt. dated Feb. 17, 2006  
Reply to Office Action of Feb. 8, 2006

Claim 4 (original): A retractable combination automobile sunshade and luggage carrier as claimed in Claim 1 further comprising actuator means connected to said retraction means and capable of reversibly moving said retraction means from said extended position to said retracted position.

Claim 5 (canceled).

Claim 6 (original): A retractable combination automobile sunshade and luggage carrier as claimed in Claim 1 further comprising four housings forming a rectangular array.

Claim 7 (original): A retractable combination automobile sunshade and luggage carrier as claimed in Claim 1 further comprising at least one retractable door panel.

Claim 8 (original): A retractable combination automobile sunshade and luggage carrier as claimed in Claim 3 further comprising linear actuator means disposed to operate said linkage mechanism.

Claim 9 (original): A retractable combination automobile sunshade and luggage carrier as claimed in Claim 1 further comprising four retractable door panels capable of an open position and a closed position and forming a rectangular configuration.

Claim 10 (currently amended): A retractable combination automobile sunshade and luggage carrier as claimed in Fig. Claim 6 further comprising four sunshade means mounted on each in said four housings.

Appl. No. 10/743,905

Claim 11 (currently amended): A retractable combination automobile sunshade and luggage carrier as claimed in Fig. Claim 10 further comprising a fifth sunshade means mounted in a selected one of said housings.

Claim 12 (new): A retractable combination automobile sunshade and luggage carrier as claimed in Claim 10 wherein a flexible sunshade is mounted in each of said four sunshade means and each of said sunshades have a leading edge with a stiffener along each of said leading edges, said stiffener supporting a magnet.

Claim 13 (new): A retractable combination automobile sunshade and luggage carrier as claimed in Claim 12 wherein said magnet comprises a plurality of smaller magnets.

Claim 14 (new): A retractable combination automobile sunshade and luggage carrier comprising:

a sunshade housing having a top surface fittable flush with a roof of an automobile in a retracted storage position, the sunshade housing comprising four further housings which are connected to form a rectangular configuration, a portion of the sunshade housing bearing against a seal mounted on a step portion of the roof thereby sealing internal components of said roof;

a roller means and a flexible sunshade mounted on said roller means in each of said four further housings, said flexible sunshades when deployed to an operating position above said roof being capable of covering respectively a front windshield, a rear windshield, and opposite side windows of said automobile;

Appl. No. 10/743,905

each of said flexible sunshades having a leading edge formed with a stiffener supporting at least one magnet;

at least one retraction means disposed supporting said sunshade housing and capable of moving said housing from said retracted storage position to said deployed operating position.

Claim 15 (new): A retractable combination automobile sunshade and luggage carrier as claimed in Claim 14 wherein said magnets are an array of smaller magnets.
